Permission to Contact/Transfer Appeals

-If a student-athlete decides to transfer to another institution, then he or she should contact the head coach for his or her sport to discuss receiving permission to contact other universities or to use the one-time transfer exception. -The decision for transfer releases is left up to the head coach for each sport, however a student-athlete’s case may be reviewed in certain circumstances and the coach’s decision may be overruled at the athletic director’s discretion.

-A student-athlete who, during a championship segment of an in-season period, has requested permission to contact another institution for the purpose of discussing a possible transfer, will continue to have access to all services and benefits made available by the Athletics department so long as the student-athlete remains a member of a University varsity athletics team. *(Updated August 1, 2016)*

-Should a permission to contact request be made outside of the championship segment in-season period, the student-athlete will be limited to academic services only, unless a senior member of the University's Athletic Administration has granted authorization for other specified services. *(Updated August 1, 2016)*

-If a student-athlete is denied permission to contact another 4-year institution or to use the one-time transfer exception, then he or she, upon request, shall be provided with a hearing conducted

by the Faculty Athletic Representative and faculty members of the Athletic Advisory Council at the earliest possible date.

- The student-athlete will have 10 working days following the receipt of the written notification of the denial to contact by the compliance officer and to request an appeal hearing.
- The student-athlete and the head coach will be allowed to meet separately with the advisory council to provide information and present their argument.
- After review and debate of each side's rationale, a decision will then be rendered by the advisory council. The decision will be provided to the compliance officer, who will notify the student-athlete and head coach. *(Updated 2/2009)*

Notification of Transfer (Policy Effective October 15, 2018)

-If a student-athlete decides to transfer to another institution, a student-athlete may initiate the notification of transfer process by providing his or her institution with a written notification of transfer at any time. The student-athlete's institution shall enter his or her information into the national transfer database within two business days of receipt of a written notification of transfer from the student-athlete.

-An athletics staff member or other representative of the institution's athletics interests shall not make contact with the student-athlete of another NCAA or NAIA four-year collegiate institution, directly or indirectly, without first obtaining authorization through the notification of transfer process.

-An institution shall have written policies related to the implication of a student-athlete providing written notification of transfer, including a description of services and benefits (e.g., academic support services, access to athletic facilities) that will or will not be provided to a student-athlete upon receipt of notification. Such policies shall be published and generally available to student-athletes (e.g., student-athlete handbook, institution's website).

-An institution may contact a student-athlete who has withdrawn officially from a four-year collegiate institution without obtaining authorization through the notification of transfer process only if at least one academic year has elapsed since the withdrawal.

-An institution shall not contact a student-athlete who has begun service on an official religious mission without obtaining authorization through the notification of transfer process if the student-athlete signed a NLI and attended the institution (with which he or she signed the NLI) as a full-time student. If such a student-athlete has completed his or her official religious mission and does not enroll full time in a collegiate institution within one calendar year of completion of the mission, an institution may contact the student-athlete without obtaining authorization through the notification of transfer process.

-It is not necessary for an institution to obtain authorization through the notification of transfer process to recruit a student-athlete at an institution that has been placed on probation with sanctions that preclude it from competing in postseason competition during the remaining season of the student-athlete's eligibility. However, the student-athlete's institution must be notified of the recruitment and may establish reasonable restrictions related to the contact (e.g., no visits during class time), provided such restrictions do not preclude the opportunity for the student-athlete to discuss transfer possibilities with the other institution.

-On approval by the Committee on Academics, an institution may contact a student-athlete at another institution whose team is ineligible for postseason competition during the remaining seasons of the student-athlete's eligibility due to sanction pursuant to the Academic Performance Program, without obtaining authorization through the notification of transfer process. The student-athlete's institution must be notified of the recruitment and may establish reasonable restrictions related to the contact (e.g., no visits during class time), provided such restrictions do not preclude the opportunity for the student-athlete to discuss transfer possibilities with the other institution.

Equipment

-The equipment rooms are used to support our athletic teams at Sam Houston State. All requests for equipment must be made through the person deemed in charge of equipment procurement for each sport for proper documentation and distribution. Each sport shall be responsible for the set-up of team uniforms, equipment and practice gear; maintaining these items throughout the season of a sport, collecting non-consumable items when the season is complete; and for necessary record-keeping and organization.

-At the end of each sport's season, each sport shall inventory all non-consumable equipment and apparel. Non-consumable equipment and/or apparel is defined as any that has a per unit price of greater than \$1,000.

-Each sport is responsible for maintaining accurate records of inventory, records of equipment and apparel issuance and return in accordance with NCAA policy (see Attachment A for standardized department form to use).

Applicable NCAA Policy

- 🐾 Purchase of Equipment: A student-athlete may purchase inventoried equipment at the conclusion of his/her intercollegiate participation on a pro-rated cost that is deemed fair market value for said equipment by the Compliance Coordinator. A student-athlete's jersey is apparel and not equipment for purposes of NCAA legislation.
- 🐾 Retention of Shoes: The legislative services staff determined that although shoes are considered equipment under NCAA legislation, a student-athlete is permitted to retain such items if they are no longer reusable at the end of the institution's playing season.
- 🐾 Student-athlete using institutional athletics apparel during the summer: A student-athlete may use institutional athletics apparel (per the institution's normal issuance and retrieval policy) during a summer vacation period.
- 🐾 Retention of athletics apparel subsequent to the academic year: In regard to whether a member institution may permit a student-athlete to retain apparel items (e.g. "personal clothing apparel") subsequent to an academic year and prior to the end of the individual's collegiate participation; it has been determined that in order for such items to be provided to the student-athlete, they must not be reusable (e.g., they must have received normal usage through practice and competition) by other team members in subsequent seasons and then subject to

the discretion of the institution, may be considered the property of the involved student-athlete.

-Once an item is determined to be past its useful life, the Director of Athletics (or his/her designee) will determine how the item in question will be disposed of (i.e. sell at auction, give-away, donation, etc.).

-Capital goods (items with a per unit value of over \$5,000) must be annually inventoried according to University policy and sent to Property when items are past their useful life.

Recruiting Procedural Guidelines

General

-Impermissible recruitment by institutional staff members is an institution's greatest area of exposure to NCAA rules violations.

-The NCAA Committee on Infractions focuses on this in its analysis of whether an institution lacks appropriate control over its athletics program.

-A system of monitoring and documenting recruiting activities is in place and staff members, boosters, prospects and their family members, and student athletes must adhere to this system.

-Recruiting is defined as any solicitation of a prospect or a prospect's family by an institutional staff member or by a booster for the purpose of securing the prospect's enrollment and ultimate participation in the institution's athletic program.

-Generally, recruiting activities can be divided into two categories; on-campus and off-campus.

-On-campus activities relate primarily to situations when a prospect is on an institution's campus on an official (any expense paid) or unofficial visit.

-Off-campus activities involve the evaluation or contacting of prospects or their family members away from the institution's campus.

-All recruiters must know and understand the rules governing their recruiting activities and adequate oversight and documentation of the activities must be maintained.

The following are the procedures, documentation, and monitoring of the recruiting process at Sam Houston State University:

[Top of the Document](#)

Permissible Recruiters Designation Form

-In order to receive permission to recruit, a coach must be a permissible recruiter under NCAA Bylaw 13.1.2 and within the numerical limitations of NCAA Bylaw 11.

-NCAA or conference restriction may be placed on a coach's permission to recruit off-campus as a result of the coach's failure to exhibit an adequate understanding of the rules.

-Each sport is required to designate in writing both the coaching staff members and off-campus recruiters for the year.

-Each sport is also required to identify to compliance all other paid or unpaid non-coaching staff members associated with the program (*Updated 1/2014*)

- Coaches will submit travel reimbursement for approval upon return to campus. This will contain a detailed account of the coaches’ recruitment process.
- Compliance Office will monitor reimbursement requests by all coaches to ensure compliance with all NCAA rules concerning appropriate evaluation, contact, and recruiting calendar bylaws.
- In addition to the compliance officer, the Associate AD/Finance, and director of athletics will also review these reimbursements. The following shows an example of the process:

GROUP UNOFFICIAL CAMPUS VISITS *(Effective 9/29/2011)*

BASIC PRINCIPLE- SHSU Athletics intends to provide PSA's and their parents/ legal guardians/guests on unofficial campus visits the same benefits and treatment in general as any other prospective student interested in SHSU.

GUIDELINES

1. Athletics staff members will not make prior arrangements with vendors and collect money on behalf of the vendor for the feeding of PSA's or their parents/legal guardians, relatives, or guests during group unofficial visits. Athletics staff members may explain what is available on or off campus and accompany the PSA's party to any restaurant or vendor that is available, but they may not make prior arrangements with vendors and collect money from PSA's or their parents/legal guardians, relatives, or guests on behalf of the vendor.

1. Athletics staff members will not arrange for Representatives of the institution's athletics interests/boosters to meet with or talk to PSA's or their parents/legal guardians, relatives, or guests during unofficial visits: Parents of current student athletes are now permitted to meet with parents of prospects and prospects during unofficial visits on contest days (12/2014).
2. Unplanned, unavoidable, incidental contact with these individuals that is not pre-arranged and in which only an exchange of greeting and an explanation of recruiting rules occurs is permissible.
3. Only the following may act as a student host during unofficial visits:
 - a. Current student athlete
 - b. Students certified for the purpose of hosting all prospective students to campus and designated by the SHSU Visitor Center in response to the athletics program's request prior to each recruiting event
 - c. Undergraduate assistant coaches designated as such on a program's Coaching Staff and Recruiter Designation form filed with the compliance office before each academic year
4. PSA's and their parents/legal guardians, relatives, or guests may receive complimentary admission to athletics contests in accordance with NCAA rules and SHSU policy (see SHSU Complimentary Admissions policy). When the PSA's party exceeds the number of authorized complimentary admissions, NCAA Bylaws state that "Tickets may be purchased ONLY IN THE SAME MANNER AS ANY OTHER MEMBER OF THE GENERAL PUBLIC." Therefore, it is not permissible to make special arrangements for purchased tickets for PSA's and their parents/legal guardians, relatives, or other guests.
5. Each PSA must complete the Unofficial Visit form for each unofficial visit. PSA's who only receive complimentary admission and do not have on campus contact with specific sport program staff members are not required to complete an Unofficial Visit form.

Eligibility Procedural Guidelines

Principles of Amateurism

-Bylaw 2.9 of the NCAA Manual requires student-athletes to be amateurs in their sport, with participation motivated primarily by education and by the physical, mental and social benefits to be derived.

-The intent is to protect student athletes from exploitation by professional and commercial enterprises.

-All first-time enrollees (both domestic and international) at an NCAA Division I or II institution must have their amateurism certified by the NCAA Eligibility Center.

-Prospects must register with the Eligibility Center and complete the amateurism section.

-In order to compete, all new student-athletes must receive a final certification from the Eligibility Center. http://web1.ncaa.org/ECWR2/NCAA_EMS/NCAA_EMS.html# (Updated 1/2008)

Admissions Policy

(See the [Sam Houston State University Catalog](#) or web page www.shsu.edu)

-The following policy for student-athletes who do not meet university admissions standards became effective September 1, 1999.

-Goals:

- a) To create opportunities for Sam Houston State University's NCAA sponsored sports to competitively recruit student-athletes who have admission access to the Southland Conference without sacrificing academic integrity.
- b) To provide a mechanism for completing the review process prior to the recruitment of the student-athlete, enabling the staff member to sign the student-athlete with the understanding that the individual will be admitted to the university.

Personal Review of Educational Potential (PREP)

-Student-athletes who do not meet the minimum requirements for admission but graduated on the recommended or distinguished program in the state of Texas and are currently ranked in the top three quarters of their class are eligible for the Personal Review of Educational Potential (PREP).

-Students in the fourth quarter of their graduating class are not eligible for this review.

-The undergraduate admissions staff will consider the following factors in the (PREP) process:

- Specific class rank (on a seven-semester transcript)
- Size of graduating class
- Quality and competitive level of high school courses taken and grades earned (i.e. AP, Honors classes, Dual Credit)
- Academic progress and achievements
- Scores on either the ACT or SAT I

-To be considered for the PREP, students are to present the following information as early as possible after their seventh high school semester during their senior year:

- A seven-semester transcript that includes class rank, SAT I and/or ACT and TAAS scores
- THEA scores (if not THEA exempt)
- A personal statement that addresses the factors that applicant wishes to bring to the attention of the admissions staff regarding the student's academic record
- Two letters of recommendation: one from a school administrator/counselor and one from a teacher

Top of the Document

Exemptions *(Updated 1/2012)*

-If a student-athlete is not admitted under the PREP process, the department of athletics may request admissions under the following Exemption process:

-A pool of twenty-four (24) slots per year are available to the various sports as listed below.

(Updated 3/2015)

-A prospective student-athlete may be considered only if they meet NCAA Initial Eligibility Standards (Eligibility Center/Clearinghouse), are in the third quarter of their high school graduating class, and are not eligible for admission to SHSU via criteria for automatic admission and/or transferring from a junior college or four-year institution.

-Prospective student athletes in the 4th quarter of their high school graduating class may be recommended for admission at the Athletic Director's discretion on a case by case basis under this program. *(Updated 8/2010)*

-A sport desiring to use an exemption slot would submit an application for admissions, an official high school, junior college or university transcript, and final NCAA Eligibility Center form to the director of athletics thru the associate AD/student services.

-The director of athletics will either recommend approval of prospective student-athletes' exemption to the director of admissions or disapprove the request. *(Updated 3/2015)*

-Student-athletes receiving approval will be forwarded to the director of admissions for admission to the university.

Foreign Student-Athlete Admission

-The university admission policy for foreign students is:

-TOEFL score: 550 written; 213 computer-based; 79 web-based *(Updated 3/2012)*

-Athletic admission for foreign student athletes who do not meet admission requirements with the minimum TOEFL scores, will be reviewed by the director of athletics, associate director of athletics/student services/SWA and director of admissions. They must be NCAA eligible for consideration.

The process determining the availability of each slot, penalties, and possible scenarios are provided below.

- a) Each admissions opportunity is based on two-year period, beginning each academic year.
- b) Student-athletes who are recruited for an admissions opportunity, must remain NCAA eligible and maintain good academic standing at SHSU for two years in order for a sport to recruit a new student-athlete in that slot.
- c) If a student-athlete does not maintain their NCAA eligibility and good academic standing at SHSU, the sport will lose the admissions opportunity for the next two-year cycle.
- d) Slots are not interchangeable between sports.
- e) Detailed records and tracking of each slot will be documented in both the admissions office and department of athletics.
- f) Coaches and staff will be provided data and guidelines on success rates of prospective student-athletes in this program. This will assist them in targeting prospective student-athletes who have a higher rate of success in completing their degree.

Certification of Student-Athlete Eligibility

Initial-Eligibility

-Initial-eligibility relates to the academic eligibility of incoming freshmen.
 -Basic eligibility requirements for incoming freshmen can be found in NCAA Bylaw 14.3.
 -Four elements must be fulfilled by incoming freshmen to be eligible for athletics during the first year: (1) graduation from high school, (2) a combination of a core curriculum of at least 16 academic courses, (3) minimum combined score on the SAT or ACT prior to the student registering for a minimum full-time program of studies (as determined by the institution) and (4) attending classes as a fulltime student in a regular term of an academic year at a collegiate institution.

-Each high school provides a list of approved core courses to the NCAA Eligibility Center.
 - Eligibility Center is responsible for certifying initial-eligibility and amateurism.

-SHSU has in place the procedures to effectively prevent academic fraud.
 -NCAA Bylaw 14.1.2 requires institutions to determine the validity of academic credentials for student athlete eligibility.
 -SHSU is responsible for determining whether a transcript or test score is valid.
 -Official transcripts and test scores must be received by the admissions certification officer (ACO) directly from the prospect's educational institution and the testing agencies.
 -ACO must be sensitive to peculiarities on submitted items and, when appropriate, take necessary steps to verify academic credentials.

-Initial eligibility of foreign student-athletes differs from domestic student-athletes.
 -Test score requirements are the same; but, standards for determining whether secondary education core course requirements are met varies by country of student athlete attendance.
 -To certify international prospects, the institution must refer to the current [Guide to International Academic Standards for Athletic Eligibility](#). The Guide lists each country and the requisite credentials that must be obtained in that country as the equivalent of the core course requirement.

-SHSU TOEFL Score Admission Standard – written: 550; computer-based: 213; web-based: 79
(Updated 3/2012)

-An initial-eligibility waiver process is in place if a student presents an extraordinary situation which prevented the student from achieving the initial eligibility requirements or the requirements in a timely manner. This requires the completion of an initial-eligibility waiver application and presentation of the specific facts and documentation to the NCAA initial eligibility waiver committee which is responsible for making determinations. This procedure is available in only a small percentage of cases. *(Updated 2/2008)*

Student-Athlete Eligibility Certification Process

Preliminary Evaluation of Student-Athlete's Qualifications

1. Coaches review available academic information from the NCAA Eligibility Center (e.g. transcripts, test scores, list of core courses) and from PSA's high school, JC, or university prior to official visit or signing of National Letter of Intent and/or Grant in Aid.
2. Associate director of athletics/student services/SWA and compliance officer evaluate academic information to determine whether to continue recruitment and extend official visit invitation or signing of National Letter of Intent.
3. Associate director of athletics/student services/SWA forwards selected (e.g. questionable) preliminary evaluations to ACO for classification.
4. Compliance officer informs coaches of approval for official visit or signing of National Letter of Intent and/or Grant in Aid.
5. Coaches inform PSA's of preliminary admissibility/NCAA eligibility status. This will include any deficiencies that may exist (e.g. GPA, core courses, test scores).

Admissions Process

1. PSA receives signing packet with coded admissions application from coaches upon signing of National Letter of Intent or PSA applies for admission online and indicates they are an incoming student athlete in the online admission application. (*Updated 1/2012*)
2. PSA returns completed admissions application to admissions office. Junior college and university transfer PSA's will include an SLC Historical Form to be sent to the compliance officer. ACO compiles admission information informs associate director of athletics/student services/SWA about missing information who forwards this information to coaches, who in turn inform the PSA.
3. Admissions office reviews application materials, makes admissibility decisions and notifies PSA by letter. ACO informs associate director of athletics/student services/SWA of PSA's not meeting admissions requirements.
4. Associate director of athletics/student service/SWA accesses admission status of prospective student-athletes and informs coaches of admissions decisions. Admissions options are provided at this time. (e.g. appeals)

Certification of Initial-Eligibility – (Freshmen/Transfers)

1. Admissions office receives final transcript, official test scores and NCAA Eligibility Center information.

2. ACO reviews academic information, determines eligibility status and completes the eligibility verification form.
3. Compliance officer enters information in the NCAA software. Associate director of athletics/student services/SWA forwards to ACO for review and initials.
4. Associate director of athletics/student services/SWA forwards finalized NCAA Eligibility Report to Conference Office prior to first competition. Copies of NCAA Eligibility Center reports are maintained on campus by associate director of athletics/student services/SWA, admissions certification officer and registrar certification officer.

Walk-on Certification

1. Coaches bring Recruited or Non-Recruited student-athletes accepted on the team to the Compliance office to in process.
2. A [New Student Athlete Practice Clearance form](#) is generated in Compliance for each walk-on and the walk-on completes all required forms on ACS, and NCAA Eligibility Center status is confirmed with the student athlete and monitored by Compliance if temporary certification for practice is approved. A copy of transcripts (e.g. high school, JC, 4yr or SHSU) are provided by coach or prospect if not already on the university system. This information is forwarded to associate director of athletics/student services/SWA.
3. Associate director of athletics/student services/SWA and compliance officer determine preliminary admissions and full-time enrollment status, the beginning of temporary certification period (e.g. 45-day grace period) and informs ACO.
4. ACO and associate director of athletics/student services/SWA determines eligibility status and certifies walk-on within 45-day certification period. Compliance withdraws walk on from practice if not certified within 45-day period.
5. After receiving permission from associate director of athletics/student services/SWA the coach will direct the walk-on to the athletic trainer for completion of physical and necessary medical/insurance papers. The trainer will then direct the walk-on to the equipment manager for equipment issue and practice.
6. The student athlete may not practice after initial tryout until the New Student Athlete Practice Clearance form and process have been documented, completed, and approved thru Compliance. Particular attention should be paid to insuring the student athlete is officially coded/blocked from dropping below fulltime status on the university systems (*updated 12/2014*).

Home-Schooled Students

-Home-schooled students who are entering college for the first time will have their coursework evaluated by the NCAA Eligibility Center and receive an initial-eligibility decision from the NCAA Eligibility Center.

Continuing Eligibility

-NCAA Bylaw 14.01.1 establishes three requirements for continuing eligibility to represent an institution in intercollegiate athletics competition:

- (1) be enrolled in at least a minimum full-time program of studies;
- (2) be in good academic standing; and
- (3) maintain satisfactory progress toward a baccalaureate or equivalent degree.

-These three requirements are independent of each other and all three have to be met in order for eligibility status to be maintained.

-A full-time program of studies is not less than 12 semester hours.

-Exceptions include

- (1) student-athletes in their final semester carrying hours necessary to obtain their degree.
- (2) graduate students who must be enrolled in no less than nine hours.
- (3) any other programs in which the university officially considers the student fulltime when they are enrolled in less than 12 semester hours.

-Student-athletes dropping below the minimum load requirements are ineligible for practice or competition.

-A code is placed on each student-athlete's account blocking them from adding or dropping classes.

-The student-athlete is not allowed to make any schedule changes without approval of athletic academic advisors.

-Good academic standing is a requirement of continuing eligibility.

-At SHSU, students on Academic Probation are considered in good standing. Suspended students are not in good standing unless they are readmitted by the appropriate authority.

-Satisfactory progress toward a degree is defined by NCAA Bylaw 14.4 which establishes detailed requirements.

-Student-athletes who have completed one semester are subject to the progress-toward-degree legislation and must be certified each semester prior to representing the institution in intercollegiate competition.

-Prior to the start of the second year of collegiate enrollment, a student-athlete must complete 24-semester hours of academic credit of which 18-semester hours must be completed since the beginning of the previous fall term or since the beginning of the institution's preceding regular two semesters.

-Hours earned during summer may not be used to fulfill the 18-hour requirement.

-Student-athletes must also complete at least 6-semester hours of academic credit during each regular academic term.

-Student-athletes entering the fifth semester following initial enrollment must have formally declared a specific degree if they have not yet done so.

-From semester five forward, credits used to meet the progress-toward-degree requirements must be earned toward the designated degree.

-To be eligible for competition, student-athletes must meet the degree plan and GPA requirements as follows:

1. Entering 2nd year: 1.8 GPA (90%)
2. Entering 3rd year: Completion of 40% of degree plan with a 1.9 GPA (95%)
3. Entering 4th year: Completion of 60% of degree plan with a 2.0 GPA (100%)
4. Entering 5th year: Completion of 80% of degree plan with a 2.0 GPA (100%)
(Updated 2/2008)

-Additionally, student-athletes must maintain the minimum GPA requirement throughout the academic year in order to be eligible for competition. If a student-athlete who has already been certified as eligible drops below the required GPA at the end of the fall semester, then they would be ineligible for competition occurring in the spring semester.

-Baseball student-athletes must have their eligibility certified based on their academic record in existence at the start of each fall term. Any additional hours or GPA points earned by a baseball student-athlete during the fall semester will not restore a baseball student athlete's eligibility for spring semester competition.

-In sports other than baseball, if the SA has not met the progress-toward-degree requirements for the Fall term, the student-athlete's eligibility may be restored at the beginning of any other regular term based upon fulfillment of the necessary requirements.

-Issues such as the use of advanced-placement tests, correspondence courses, credit by examination, remedial or non-credit courses, incomplete grades, repeated courses, credit earned at other institutions, and distance learning are addressed in the NCAA legislation and must be examined on a case-by-case basis. (Updated 2/2008)

-There are certain exceptions and waivers to the satisfactory progress rules which may apply in particular circumstances. The exceptions are for student-athletes that have missed terms or consecutive terms, pregnancy, or were not recruited and have not previously participated in intercollegiate athletics. The exceptions are applied by SHSU in the eligibility certification process.

-Waivers of the progress-toward-degree rules may be granted under medical absence circumstances or in the event the student-athlete is involved in international competition.

-In other applicable situations, the Division I Progress-Toward-Degree Waiver Committee has the authority to waive all other progress-toward-degree requirements based on objective evidence that demonstrates circumstances that warrant the waiver of the normal application of those regulations. *(Updated 2/2008)*

A. Monitoring Academic Progress of Student-Athlete – During Term

1. Academic records are maintained in the registrars' office by the registrar certification officer (RCO).
2. Athletic academic advisor has read only access to review academic records of student-athlete.

1. Coaches are required to submit a list of all returning student-athletes to the associate director of athletics/student services/SWA no later than May 1st. This list will include remaining years of competition.
2. The associate director of athletics/student services/SWA reviews list of all returning student-athletes to be certified insuring that all student-athletes subject to continuing eligibility requirements are included (e.g. partial non-qualifiers, medical hardships, transfer, etc.) and confirming years of competition for each student-athlete. The associate director of athletics/student services/SWA sends list to registrar certification officer no later than grade deadline.
3. RCO verifies satisfactory progress (e.g. courses applicable to degree plan), designation of degree plan and good academic standing of all roster.

2. Student-athletes attempting to drop below full-time enrollment are precluded from dropping below full-time enrollment without prior notification from the associate director of athletics/student services/SWA and are coded and blocked from dropping below fulltime in the system.
3. The RCO, the assistant AD/academic services, and the compliance officer access student-athlete records periodically throughout each term to monitor full-time enrollment. (*updated 12/2014*)

F. Designation of Degree Plan

1. Student-athletes are educated by and required to consult with the associate director of athletics/student services/SWA regarding proper class schedule and application of course work toward specific or designated degree program. They must receive mandatory advisement from the SAM Center (or appropriate college department) and department of athletics prior to registration.
2. Registrar certification officer monitors 5th semester status of all student-athletes.
3. Change of degree plan must be made with approval of the associate director of athletics/student services/SWA and RCO.

Transfer Eligibility

-Transfer eligibility rules are found in NCAA Bylaw 14.5.

-First, classify student-athlete as a transfer student to ensure appropriate rules are applied.

-A transfer student is generally an individual who transfers from a collegiate institution after having been enrolled in a minimum full time program of study and been present the first day of classes, attended a class while enrolled as a full-time student, participated in practice, competed in a sport or received institutional financial aid while attending a summer school, extension or night courses or if the student-athlete attended a branch school which does not offer intercollegiate athletics (see NCAA Bylaw 14.5.2).

- After classification as a transfer, an additional determination must be made depending on the nature of the institution from which the student-athlete is transferring.
- Rules vary depending on whether the student-athlete is transferring from a two-year college, four-year college or from a two-year college after having previously attended a four-year college (4-2-4).
- The general rule for all transfer students is that they must complete one full year of academic residence before being eligible to compete for the member institution.
- There are exceptions in each transfer category, which would allow the student-athlete to be immediately eligible. Situations for each transfer student are unique and must be examined on a case-by-case basis. *(Updated 2/2008)*

Transfer Addendum Policy

- Teams in the Athletic Department are required to work in collaboration with Compliance to use diligent efforts to gather pertinent information regarding the prior conduct of any transfer student-athlete, including a graduate student, who seeks to enroll and participate in intercollegiate athletics.
- During the recruiting process, it is mandatory that every potential transfer student-athlete complete a transfer addendum PRIOR to the transfer student-athlete signing an NLI/Grant-In-Aid.
- The Transfer Addendum policy is a three-step process developed by the University's General Counsel consisting of three documents: a Student Section, Dean of Students Section and Athletic Department Section.
- It is mandatory that SHSU Athletics obtain the transfer student-athlete's authorized permission (included in the student section) before requesting information regarding their prior conduct from the losing institutions Dean of Students and Athletic Department's compliance office.
- The athletic compliance office reviews all transfer addendums in conjunction with the University's Title IX Coordinator.
- Prior to transferring, a student-athlete must complete the [Transfer Addendum for Athletic Compliance Student Section](#) On this form, the student-athlete will verify his or her criminal history and whether or not he or she has been investigated by his or her college or university for violation of school policy.
- The SHSU Compliance Office must also request from the Dean of Students Office of the losing institution a [Transfer Addendum for Athletic Compliance Dean of Student Section](#) and from the losing athletic department a completed [Transfer Addendum for Athletic Compliance Athletic Department Section](#) prior to transferring. These forms have questions regarding whether the student-athlete attended the school, competed in collegiate competition and was ever investigated for and/or charged with criminal or school violations. - a) The Student-Athlete Statement form is administered to each sport (freshman/upperclassmen) prior to its initial outside competition.
- b) Compliance will review the student-athlete statement. A summary of the regulation is reviewed by the associate director of athletics/student services/SWA prior to the initial outside competition.
- c) Signed Student-Athlete Statements and Student-Athlete Affirmation of Eligibility form are filed with the sport squad list. Compliance will administer and maintain form electronically. (*Updated 11/2013*)

Squad Lists

Preparation and Maintenance of Squad List

- a) The compliance officer is responsible for completion and maintenance of NCAA Squad Lists. Coaches must immediately inform Compliance of changes in their rosters including:
 - 1. Those who are no longer participating and the date and reason for the student athlete ceasing to participate.
 - 2. All new student athletes who must be in processed and approved to practice using the New Student Athlete Clearance to Practice process before

participating in any countable athletically related activity (CARA).

Student-Athlete/ Agent Policy

- This policy is required to comply with the laws of the state of Texas and NCAA Bylaw 12.
- The policies and procedures described provide specific guidelines to follow to ensure that SHSU protects the eligibility of its student-athletes and serves the needs of both agents and student-athletes.
- This policy is applicable to all student-athletes at Sam Houston State University and to all agents who want to interview SHSU student-athletes, in accordance with state law.
- Upon receipt of a written request from a registered athlete agent, the compliance coordinator shall provide a copy of the implementation standards adopted by SHSU relating to athlete agents.

Use of Agents

A. General Rule: An individual shall be ineligible for participation in an intercollegiate sport if he or she has ever agreed (orally or in writing) to be represented by an agent for the purpose of marketing his or her athletic ability or reputation in that sport. Further, an agency contract, not specifically limited in writing to a sport or particular sports, shall be deemed applicable to all sports, and the individual shall be ineligible to participate in any sport.

1. Representation for Future Negotiations: An individual shall be ineligible if he or she enters into a verbal or written agreement with an agent for representation in future professional sports negotiations that are to take place after the individual has completed his or her eligibility in that sport.
2. Benefits from Prospective Agents: An individual shall be ineligible if he or she (or his or her relatives or friends) accepts transportation or other benefits from any person who represents an individual in the marketing of his or her athletic ability. The receipt of such expenses constitutes compensation based on athletics skill and is an extra benefit not available to the student body in general.

Legal Counsel: Securing advice from a lawyer concerning a proposed professional sports contract shall not be considered contracting for representation by an agent unless the lawyer also represents the student-athlete in negotiations for such a contract.

****Presence of a Lawyer at Negotiations:** A lawyer may not be present during discussions of a contract offer with a professional organization or have any direct contact (i.e., in person, by

telephone or by mail) with a professional sports organization on behalf of the student-athlete. A lawyer's presence during such discussions is considered representation by an agent.

C. Athletics Scholarship Agent: Any individual, agency or organization that represents a prospective student-athlete for compensation in placing the prospect in a collegiate institution as a recipient of institutional financial aid shall be considered an agent or organization marketing the individual's athletic ability or reputation.

Student-Athlete/ Agent Interviews

-The Texas Athlete Agent Act regulates the relationship between an athlete and the party(s) who would act as an agent for the athlete.

-It requires that notice be given to the institution if such a relationship is formed between an athlete agent and an athlete.

-An athlete agent is required to register with the Secretary of State's office.

-A registered athlete agent may interview an athlete during an interview program to discuss:

(1) Financial services and advice offered by the athlete agent; and

(2) The athlete agent's representation of the athlete relating to marketing the athlete's athletic ability and reputation.

-All contacts and meetings with a student-athlete must be initiated through the compliance coordinator.

-Copies of written materials provided by an agent to a student-athlete must be sent to the compliance coordinator.

-The following standards comply with the Texas Athlete Agent Act and Sec. 2051.251 of the Occupations Code for a Texas Institution of Higher Education:

- 1) Interviews periods will be determined by the Compliance Coordinator for each academic year. Periods will be held between the dates of September 1 through May 15 and will not continue for more than 30 consecutive business days as determined by SHSU. Financial Aid Procedural Guidelines

Elements of Financial Aid

- The administration of financial aid to student-athletes is an inter-department function involving interaction between an athletics administrator and a representative in the financial aid office. It is a very complex area of NCAA legislation and an area of compliance which must not be overlooked or de-emphasized by institutional administrators.
- The financial aid rules are designed to establish limits on the amount of aid an individual student-athlete may receive (individual limits) and an institution may award in a specific sport (sport limits). The primary reason for these limits is the establishment of a level playing field in intercollegiate athletics. Generally, the maximum amount of institutional financial aid a student-athlete may receive is a full grant-in-aid up to cost of attendance (COA) *(2/23/2015)*
- Restrictions on the amount and/or number of financial aid grants that institutions can award in each intercollegiate sport are set forth in NCAA Bylaw 15.5.

- Student-athlete are subject to individual limits and are not eligible to participate in intercollegiate athletics if the limits are exceeded (NCAA Bylaw 15.1).
 - The only student-athletes not subject to these limits are those receiving no financial aid at all or those who were not recruited and receive no aid related to their athletics abilities.
 - Two values accurately establish limits for student-athletes. A full grant-in-aid is the total cost of tuition and fees, room, and board and required course related books. The cost of attendance (COA) value also includes transportation and other expenses related to attendance at SHSU.
 - Both of these amounts must be established by the institution for each student-athlete based on such factors as in-state or out-of state tuition and residence in on-campus or off-campus housing.
 - NCAA Bylaw 15.01.6 states that an institution shall not award financial aid to a student-athlete that exceeds the cost of attendance that normally is incurred by students in comparable programs or the limits set by your institution's division.
 - To apply these limits accurately all aid awarded to student-athletes must be processed through the financial aid office and an individual within that office should be responsible for determining its status.
- Equivalencies are calculated by establishing the cost of a full grant-in-aid as the denominator and the amount of all countable aid received by the student-athlete as the numerator and then adding the sum of all percentages for each student-athlete.
- Athletic grants-in-aid may exceed one year in duration. An athletic grant-in-aid may also not be awarded for a period of less than one academic year unless allowable under 15.3.3.1.1.
 - Athletic grants-in-aid may be awarded for any duration, from a period of one year up to five years, not to exceed the student-athlete's fifth year of eligibility. (*Updated 1/2012*)
 - An institution must advise a student-athlete in writing prior to July 1 after the expiration of the term of aid as to whether the student-athlete's athletic grant will be renewed for the upcoming academic year.
 - If not renewed or reduced, a student-athlete must be afforded the opportunity to appeal the decision to the non-athletic body making the award.
 - There are also situations where a student-athlete's aid may be cancelled or graded during the period of the award. Please see NCAA Bylaw 15.3 for a detailed analysis of the terms and conditions of awarding institutional financial aid to student-athletes.
